

Hey faizy

Hope you are doing well.

Do you remember me?

We both studied together in SLS School and were very attached to each other. After some time you went back to England I miss you since then, but I couldn't contact you at first because I was a child myself at that time and I think it is my childhood ke mei tumhy miss krti hun and whatever like this. but in actually that was not my childhood I literally got so attached to you because we were besties. A few days ago I saw you in my dream so I thought of writing a letter because after this dream, I started to remember you more intensely and Nowadays am missing you so much that's why I thought of writing you this letter to contact with you because i just have your house address not any your contact Faizy. You must be wondering how this letter has been sended to you, so let me tell you I still have your house address, which was given to my mother by your mother a long time ago .I kept everything save because everything related from you is very precious for me .I am sending this letter to you in the hope that you will answer me after you received my letter .I missing you so much that I couldn't stop myself from contacting you .

Yours Lovely
